# 4G LTE NETWORK FAILOVER SOLUTIONS

## ENSURING UNINTERRUPTED BUSINESS CONTINUITY & CONNECTIVITY

Network downtime can result in expensive losses of revenue and employee productivity. That's why organizations in such industries as retail, healthcare, finance, education and government invest in automatic failover technologies that provide continued Internet and LAN connectivity via high-speed 4G LTE networks when the primary Internet connection is unavailable.

## ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

## PROTECT YOUR BUSINESS FROM INTERNET SERVICE INTERRUPTIONS

M3 Technology Consultants connects your organization with a 4G LTE network failover solution that meets your unique business needs. Our solution automatically detects any Internet connectivity failure and seamlessly transitions you to the 4G LTE connection. Similarly, once the primary Internet connection is restored, traffic is routed back. Most members of your team won't even be aware that an incident occurred. Regardless of whether the cause is human error, an ISP issue or an internal network fault, your operations can continue without interruption.

### REDUCED DOWNTIME

M3 Technology Consultants makes unexpected service interruptions and downtime issues of the past. With our 4G LTE network failover solutions, your team can continue being productive, servicing customers and generating revenue.

### AUTOMATIC SWITCHING

Our failover solution intelligently detects connectivity outages and seamlessly switches your operations to a 4G LTE Internet network. This cellular connection provides you with the speed and flexibility you need to keep your business running.

## COST EFFECTIVE

Failover solutions by M3 Technology Consultants provide protection against costly outages that can result in upset customers, lost revenue and decreased productivity. Plus, our cellular failover plans can be customized to meet your unique needs and IT budget.

## SEAMLESS INTEGRATION

Our 4G LTE failover solutions are designed to integrate seamlessly with your existing IT systems and network infrastructure. We monitor, manage, maintain and update the equipment to ensure it's ready to go if (or more likely when) it's needed.

## EASY SETUP

4G LTE-based connectivity can be set up in minutes and provides reliable failover connectivity for computers, credit card machines, VoIP phones, on-premise servers and more. Whatever your specifications, we can find a solution to keep you connected.

## CLOUD CONNECTIVITY

If your business relies on virtual servers, hosted applications or other cloud computing software, then integrating your 4G LTE failover solution is a breeze. By connecting to the cloud, you can ensure you have the failover you need from anywhere.
