

APPLICATION HOSTING

ACCESS YOUR APPLICATIONS FROM ANYWHERE, ON ANY DEVICE

A hosted application is a software as a service (SaaS) solution that empowers you to deploy and access software applications entirely from the cloud. By hosting applications with M3 Technology Consultants, you improve productivity, resiliency, mobility and versatility of your workforce while maintaining the same functionality as locally installed software.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

RUN YOUR APPLICATIONS ON OUR STATE-OF-THE-ART CLOUD INFRASTRUCTURE

When you choose M3 Technology Consultants as your application hosting provider, your team gets easy, secure access to a hosted application – such as Microsoft Office or QuickBooks – that is hosted in our modern data center. Applications are available on-demand to as many users as you need and are accessible via desktop and laptop computers – as well as Apple and Android devices – without rewrites. This allows your team to access the software they use most from virtually anywhere via the Internet and reduces costs by minimizing the need for new hardware and software purchases.

MINIMAL MAINTENANCE

With hosted applications, M3 Technology Consultants takes care of routine software updates and management of the cloud server. Plus, there is no new software to purchase or download, making deployment and administration simple.

AFFORDABLE PRICING

Don't spend money on licenses or capabilities you don't need. Our simplified pricing ensures you only pay for what you use and can easily grow or scale back your plan based on your organization's unique requirements.

ANYWHERE ACCESS

Because your application is securely hosted in the cloud, users can log in and use it from anywhere – and on any device. All that’s needed is an Internet connection, and users can work from a coffee shop, the airport or a hotel overseas.

ENHANCED SECURITY

Outdated applications and unpatched servers leave you exposed to a variety of cyberthreats. M3 Technology Consultants automates the process of keeping your cloud-based applications updated to prevent threats from impacting your organization.

IMPROVED RELIABILITY

It’s important that your applications are available wherever and whenever you need them. Our team of expert IT professionals is available around the clock to observe your systems and ensure your business runs properly and efficiently.

HELP DESK SUPPORT

M3 Technology Consultants resolves 99 percent of technical issues quickly and easily, with little to no downtime. Just give us a call or shoot us an email. We work with you to troubleshoot technical issues and overcome virtually any obstacle.

WE DO MORE THAN CLOUD APPLICATION HOSTING. M3 TECHNOLOGY CONSULTANTS ALSO OFFERS:
