

AUTOMATION & IOT SUPPORT

IMPROVING & STREAMLINING BUSINESS PROCESSES

Automation and the Internet of Things (IoT) are rapidly becoming indispensable tools for boosting productivity, slashing costs and simplifying processes. M3 Technology Consultants is a leader in setting businesses up for success with automation and IoT by connecting, maintaining and properly securing mission-critical tools and devices.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

SHARPEN YOUR COMPETITIVE EDGE WITH DATA AND AUTOMATION

Ask any major company what technology they're investing in – the answer is automation and IoT. Automating business processes decreases the time you spend on routine tasks, frees up your employees to handle core business functions and minimizes the odds of catastrophic user error. Enabling devices with IoT gives you granular, actionable data in near real time, so you can make business decisions based on reliable insights. But, having so many connected devices leaves you more vulnerable to cyberattacks. We put a premium on solutions that deflect viruses and other threats, so your network is protected at every endpoint.

ENHANCED SECURITY

The more devices you connect and automate, the greater the risk to your entire network. We implement and continually update first-class security solutions that battle viruses, phishing, ransomware and other cyberthreats.

24/7/365 MONITORING

Our team of expert engineers and support technicians proactively monitors your systems to prevent trouble and maximize uptime. In the unlikely event of an interruption, they're in place to immediately solve the problem.

SPECIALIZED EXPERTISE

Have a problem that's puzzling your IT department? Our team is here to help. It can be tough to stay on top of all the technical changes happening every day. Now your staff can lean on us when they need to.

STRATEGIC PLANNING

Being spontaneous is fun, but not when it comes to your IT decisions. We learn the needs of your business, discuss your goals and create a tailored roadmap that meets both, so you can make more confident, cost-effective decisions.

CUSTOMIZED SOLUTIONS

Why settle for technology services that only support your needs half of the time? Our technicians perform an assessment and design a package that accommodates all your crucial business requirements while sticking within your budget.

HIGH-SPEED CONNECTION

Slow connection speeds and high network latency can cost you thousands of dollars in lost productivity. Experience a smooth connection that boosts efficiency and gives your business a competitive advantage.

WE DO MORE THAN AUTOMATION & IOT SUPPORT. M3 TECHNOLOGY CONSULTANTS ALSO OFFERS:

- ✓ Technology Assessments
- ✓ IT Infrastructure Monitoring
- ✓ Data Backup & Recovery
- ✓ Cybersecurity Services
- ✓ IP Telephony Solutions
- ✓ Remote PC & Mac Support
- ✓ IT Project Management
- ✓ Cloud Computing Solutions
