

CYBERSECURITY SERVICES

THE FUTURE OF YOUR BUSINESS STARTS WITH CYBERSECURITY

Protecting your systems from cyberthreats is the first step towards ensuring your business has a future filled with growth and success. When you partner with M3 Technology Consultants, we combat hackers, close vulnerable gaps in your systems and provide the peace of mind you need to run a successful business.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

BUILD A FORTRESS AROUND YOUR SYSTEMS WITH M3 TECHNOLOGY CONSULTANTS

Data loss, broken client trust, damage to your reputation – we understand all the risks associated with leaving gaps in your security. That's why we take protecting your business from all the cyberthreats looming at every corner as serious as we take protecting our own. Our team of security experts take the confusion out of managing risk, maintaining compliance and securing your infrastructure with various cybersecurity services including computer and network security, backup and recovery solutions, firewall management, security assessments, endpoint protection and more.

ENHANCED SECURITY

Outdated applications and unpatched servers leave you exposed to a variety of cyberthreats. M3 Technology Consultants automates the process of keeping your cloud-based applications updated to prevent threats from impacting your organization.

24/7/365 MONITORING

Our team of security experts proactively monitors your systems to prevent trouble and maximize uptime. In the event that a red flag pops up or you're faced with a cyberthreat, we're in place to immediately defend your business.

MINIMIZED DOWNTIME

You don't have time to sit around while your systems are down. In addition to proactively monitoring your network so we can stop threats in their tracks, we back up your data to the cloud so that it's easily recoverable in any situation.

HIGH-LEVEL ASSESSMENTS

You can't protect your systems without knowing where your technology stands. We conduct comprehensive assessments of your computers, network, processes and more to identify areas for improvement and develop a customized plan for growth.

ENSURED BUSINESS CONTINUITY

When you're hit with a cyberattack, our server location services give you an extra layer of business continuity protection. Your critical data is backed up and available for retrieval at any time, so your employees and customers are never left in the dark.

STRATEGIC PLANNING

Being spontaneous is fun, but not when it comes to your IT decisions. We learn the needs of your business, discuss your goals and create a tailored roadmap that meets both, so you can make more secure, cost-effective decisions.

WE DO MORE THAN CYBERSECURITY SERVICES. M3 TECHNOLOGY CONSULTANTS ALSO OFFERS:

- ✓ Technology Assessments
- ✓ IT Infrastructure Monitoring
- ✓ Data Backup & Recovery
- ✓ Managed IT Services
- ✓ IP Telephony Solutions
- ✓ Remote PC & Mac Support
- ✓ IT Project Management
- ✓ Cloud Computing Solutions
