EQUIP YOUR BUSINESS WITH A POWERFUL IT TEAM

Recruiting quality talent is hard, retaining it is harder – and training when you have a million other things to do is borderline impossible. But, you don't have to slow business to a crawl while onboarding new employees – M3 Technology Consultants offers full-service staffing and training solutions to ease your workload. We use our extensive IT recruitment experience to find and vet qualified candidates, and then train them on the necessary processes and platforms. We know you want the best individuals on your team, and we'll make sure they fit your culture, understand your operations and work with you toward an even more successful future.

PROFESSIONAL IT EXPERTS

You want the best – but, what makes someone a good asset to your team? We look for relevant experience and ask the right questions to find a skilled employee that has the qualifications you need to take your business to the next level.

STANDARDIZED TRAINING

No more disagreements about the best approach or confusion over different platforms. We provide comprehensive, standardized training so your employees are on the same page and working together as a team.

FLEXIBLE SCHEDULING

Are you looking for someone with a specific skill set – but only for 20 hours a week? M3 Technology Consultants will find an employee to fit your hourly requirements and arrange alternate employment for the rest of the workweek.

GREATER EFFICIENCY

Let's face it – interviewing, onboarding and training new talent is time-consuming. Leave those tasks to us and let your team focus on what they do best, without the distraction of meeting potential candidates and explaining processes.

COMPETITIVE ADVANTAGE

When you're going up against global brands, nationwide franchises and superstores, you need every competitive edge you can get. Our IT staffing and training services allow you to build a strong workforce with small-business resources.

STRATEGIC PLANNING

Being spontaneous is fun, but not when it comes to your IT decisions. We learn the ins and outs of your business and bring on employees that will not only fulfill your current requirements but help you achieve your goals for the future.
