

LIFECYCLE MANAGEMENT

EXTENDING THE LIFE OF YOUR TECHNOLOGY SOLUTIONS

Technology isn't immortal – failing to keep your solutions updated increases the rate of decline and results in lag, downtime and intermittent connectivity. By managing the lifecycle of your hardware, software and other technology solutions, you can ensure that your team gains a seamless experience.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

ELIMINATE LAG & IMPROVE YOUR TECH EXPERIENCE

You depend on your computers, servers, Wi-Fi and other technology solutions to make your daily work easier and more efficient. But, ensuring your tech works the way you need it to requires routine updates and maintenance. With lifecycle management and support, we'll take care of your hardware to ensure you're never waiting around for updates or experiencing less than desirable tech conditions. Extending the lifecycle of your technology reduces the cost of purchasing new equipment by increasing the time between procurements. We'll help you update and install your new technology to ensure everything works as expected.

INCREASE PRODUCTIVITY

You don't have time to waste on hiccups in your IT projects. M3 Technology Consultants manages projects from concept to completion, using our expertise to predict and plan for bumps in the transition so your business can continue running smoothly.

STRATEGIC PLANNING

Being spontaneous is fun, but not when it comes to your IT decisions. We learn the needs of your business, discuss your goals and create a tailored roadmap that meets both, so you can make more confident, cost-effective decisions.

MEET COMPLIANCE

Protecting your business and customers data is critical to meeting compliance and avoiding fines. By keeping your equipment updated, M3 Technology Consultants reduces your risk of breaches and data compromises.

ENHANCE QUALITY

Outdated technology is expensive to maintain, a pain to use and a nightmare to manage. By keeping your equipment updated, we'll enhance the quality of your solutions and help you take back control of your technology.

CONTROL SPENDING

When your technology permanently stops working, there is only one thing you can do - buy new equipment. We help you control costs by extending the life of your hardware and minimizing the need for procuring new equipment.

IMPROVED RELIABILITY

It's important that your hardware and other tech solutions are available whenever you need them. Our team of expert IT professionals maintain your solutions around the clock to ensure your business runs properly and efficiently.
