MANAGED FIREWALL SERVICES

DEFENDING YOUR SYSTEMS FROM EXTERNAL THREATS

Keeping your confidential information protected is essential for building credibility, meeting compliance and securing your business. Your firewall adds a layer to your defenses to keep your business & customer data safe – but, only if it's properly deployed, updated, managed and maintained.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

KEEP CYBERTHREATS OUT

From ransomware and viruses to hackers and phishing scams, your systems are vulnerable to a variety of damaging cyberthreats that require diligence paired with multi-layered security solutions. M3 Technology Consultants protects your business from cyberthreats by monitoring your systems and upgrading, patching and maintaining your firewall. We proactively monitor your virtual activity and address issues before they cause havoc to your computers, servers or network. By pinpointing gaps in your firewall, we'll quickly close them, strengthen your defenses to prevent breaches and eliminate the risk of cybercriminals exploiting your weaknesses.

24/7/365 MONITORING

Our team of expert engineers and support technicians proactively monitors your systems to prevent trouble and maximize uptime. In the unlikely event of an interruption, they're in place to immediately solve the problem.

PROACTIVE MAINTENANCE

Because your vital technology infrastructure is routinely monitored, M3 Technology Consultants can easily identify IT issues before they become disruptions to your daily workflow. Our team minimizes the risk of system failure and ensures your systems are running at peak performance.

AUTOMATIC UPDATES

Outdated software or unpatched computers leave you exposed to cyberthreats. M3 Technology Consultants automates the process of keeping your software and hardware updated to safeguard your vital systems and prevent threats from coming through your front door.

REMOTE & ON-PREMISE HELP

M3 Technology Consultants resolves 99 percent of technical issues quickly and easily, with little to no downtime. But, for the one percent where a technician is needed at your location, we have you covered. We'll get there fast and get you back to business.

MINIMIZED DOWNTIME

You don't have time to sit around while your systems are down. In addition to proactively monitoring your network so we can stop threats before they start, we back up your data to the cloud so it's easily recoverable in any situation.

MEET COMPLIANCE

Protecting your business and customer data is critical to meeting compliance and avoiding fines. By keeping your firewall updated, M3 Technology Consultants reduces your risk of breaches and data compromises.

WE DO MORE THAN MANAGED FIREWALL SERVICES.
