LOWERED COSTS

From buying ink cartridges to purchasing paper and toner, managing your own printing solution is expensive and time-consuming. We'll help you lower costs by working with vendors to get affordable supplies and integrate them into your printing services.

AUTOMATED UPDATES

To keep your printer running smoothly and performing at its best, your system requires maintenance and updates. M3 Technology Consultants automatically updates your hardware and tests your system to ensure downtime stays at a minimum.

ACTIVITY REPORTS

If your printer is experiencing a paper jam, but you aren't there to see the error message, does the jam still exist? We provide incident reports to keep track of changes to your printer and provide solutions for preventing issues.

ENHANCED SECURITY

Maintaining the security of your printers is often an afterthought for many businesses. We'll conduct a print assessment to identify printer and IP security risks, including recommendations for print sign-in security, to minimize intellectual property theft and security breaches.

ENVIRONMENTAL ANALYSIS

With managed print services from M3 Technology Consultants, you can track and analyze your levels of print usage to intervene and reduce your environmental footprint. Not only will you help the environment but you'll also save money on paper and ink.
