

MICROSOFT AZURE HOSTING

CONNECTING YOU TO THE POWER OF THE CLOUD

If your organization is searching for a cloud solution to manage costs, strengthen security and scale easily, let us introduce you to Microsoft Azure. Host your servers, applications and more on Microsoft's cloud network – spanning more than 100 highly secure facilities worldwide – and all with 24/7 monitoring and support from our expert technicians.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

GROW WITH SECURE, SCALABLE HOSTING SOLUTIONS

Business continuity. Better collaboration. Seamless scalability. Get the benefits of cloud computing with Microsoft Azure's industry-leading cloud platform. Azure meets GDPR, HIPAA and other compliance standards with high-level data security. Companies that currently operate Windows servers and programs can easily upgrade to access cloud-hosted versions of Microsoft solutions like Active Directory and SQL Server. Users can even operate Windows programs through a hosted desktop connection for standardized, flexible access. And, because you're billed based on your usage, you can easily scale on demand depending on your needs.

MINIMAL MAINTENANCE

With hosted applications, M3 Technology Consultants takes care of routine software updates and management of the cloud server. Plus, there is no new software to purchase or download, making deployment and administration simple.

AFFORDABLE PRICING

Don't spend money on licenses or capabilities you don't need. Microsoft Azure's simplified pricing ensures you only pay for what you use and can easily grow or scale back your plan based on your organization's unique requirements.

ANYWHERE ACCESS

Because your corporate data and applications are securely hosted in the cloud, users can log in and access them from anywhere – and on any device. All your employees need to interact with business-critical information is an Internet connection.

HIGH-SPEED CONNECTION

Slow connection speeds and high network latency can cost you thousands of dollars in lost productivity and customer dissatisfaction. Experience a smooth connection that boosts efficiency and gives your business a competitive advantage.

POST-DEPLOYMENT ASSISTANCE

Your IT projects don't end at deployment. We're on hand to answer questions and offer support after you launch. We'll also help you figure out your next steps, scale up or down depending on your needs and stay current with the best products and services for your business.

SEAMLESS SCALABILITY

When you're growing fast, your technology has to keep up. Cloud computing lets you quickly increase the number of users as your needs change. You'll only pay for what you consume and never have to worry about running out of capacity.

WE DO MORE THAN MICROSOFT AZURE HOSTING. M3 TECHNOLOGY CONSULTANTS ALSO OFFERS:

- ✓ Technology Assessments
- ✓ IP Telephony Solutions
- ✓ IT Infrastructure Monitoring
- ✓ Remote PC & Mac Support
- ✓ Data Backup & Recovery
