

PBX AS A SERVICE

AUTOMATING YOUR PHONE SYSTEMS

Streamlining your communication solutions is crucial to improving your customers' experience, but maintaining hardware can be a pain. By deploying your PBX phone system to the cloud, you can reduce maintenance costs, hardware space and migration and installation wait times while optimizing your team for success.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

ANSWER CALLS FROM ANYWHERE

PBX keeps your customers, prospects and teams connected so you can better serve the people you value most. With features like call forwarding, virtual assistant and centralized control, you'll provide the immediate support your customers need while enhancing their calling experience. When prospects call after hours, your sales team can set up their personal devices to receive the call - eliminating the chance of losing a sale and generating more profit for your business. Utilizing PBX as a service provides the same features you depend on daily without the extra costs for hardware, licenses, maintenance, updates or office space.

SEAMLESS SCALABILITY

When you're growing fast, your technology has to keep up. Cloud computing lets you quickly increase the number of users as your needs change. You'll only pay for what you need and never have to worry about running out of capacity.

IMPROVED AVAILABILITY

Your constant availability is key to customer satisfaction. Our team of experts monitor your network's performance to maximize connection speed while minimizing latency, so you consistently exceed customer expectations.

REDUCED OVERHEAD COSTS

One of the biggest operational expenses for businesses is the cost of office space. By leveraging the power of technology, a virtual office model lets you expand the size of your workforce without moving to a bigger office.

CLOUD MIGRATION

Moving to the cloud may seem like a simple task in the beginning, but it gets complicated very quickly. M3 Technology Consultants has the expertise and tools to make your transition to PBX as a Service as easy and seamless as possible.

HIGH-SPEED CONNECTION

Slow connection speeds and high network latency can cost you thousands of dollars in lost productivity and customer dissatisfaction. Experience a smooth connection that boosts efficiency and gives your business a competitive advantage.

POST-DEPLOYMENT ASSISTANCE

Your IT projects don't end at deployment. We're on hand to answer questions and offer support after you launch. We'll also help you figure out your next steps, scale up or down depending on your needs and stay current with the best products and services for your business.

WE DO MORE THAN PBX AS A SERVICE. M3 TECHNOLOGY CONSULTANTS ALSO OFFERS:

- ✓ Technology Assessments
- ✓ IP Telephony Solutions
- ✓ IT Infrastructure Monitoring
- ✓ Remote PC & Mac Support
- ✓ Data Backup & Recovery
- ✓ IT Project Management
- ✓ Cybersecurity Services
- ✓ Cloud Computing Solutions
