

# PHYSICAL SECURITY SOLUTIONS

## PROTECTING YOUR BUSINESS FROM ALL ANGLES

Implementing the best cybersecurity solutions available is only part of the equation – you could still be leaving your office and on-site data wide open to physical threats. We deploy and manage security cameras, intrusion detection software and more, as well as control personal access to ensure that only authorized employees have access to non-public areas.

### ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

### DEFEND YOUR OFFICE AGAINST EXTERNAL THREATS

Your cybersecurity solutions should be complemented by physical solutions that protect against unauthorized access and malicious attacks. We install security equipment like interior and exterior cameras and motion sensors to detect suspicious activity. Old locks and outdated access cards can pose a threat to your business, so we update and manage controls to closely regulate who can access sensitive areas. We support your physical security solutions to maintain performance while minimizing downtime and vulnerability.

#### 24/7/365 MONITORING

Our expert engineers and support technicians proactively monitors your systems to prevent trouble and maximize uptime. In the unlikely event of an interruption, they're in place to immediately solve the problem.

#### SINGLE POINT OF CONTACT

Do you have to dig through old emails and contacts to find answers to your questions? There's a simpler way – call us. We'll be your single point of contact, communicating with your security vendors on your behalf.

## COMPETITIVE PRICING

Vendor costs shouldn't tank your budget. M3 Technology Consultants accepts bids and negotiates security contracts on your behalf, so you get the best service at the best price.

## CUSTOMIZED SOLUTIONS

Why settle for technology services that only support your systems half of the time? Our physical security solutions resolve problems, improve performance and ease headaches.

## STRICT USER ACCESS

Keep unwanted eyes away from your data. M3 Technology Consultants ensures private data remains private by preventing illicit access, damage or deletion of confidential data.

## STRATEGIC PLANNING

We learn the needs of your business, discuss your goals and create a tailored roadmap that meets both, so you can make confident, cost-effective security decisions.

## WE DO MORE THAN PHYSICAL SECURITY SOLUTIONS. M3 TECHNOLOGY CONSULTANTS ALSO OFFERS:

- ✓ Technology Assessments
- ✓ IT Infrastructure Monitoring
- ✓ Data Backup & Recovery
- ✓ Cybersecurity Services
- ✓ IP Telephony Solutions
- ✓ Remote PC & Mac Support
- ✓ IT Project Management
- ✓ Cloud Computing Solutions
