RANSOMWARE & PHISHING PROTECTION

SECURING YOUR BUSINESS AGAINST CYBERCRIMINALS

Ransomware and phishing attacks are one of every company's biggest fears – as they should be. These cybercrimes can cost your business millions in downtime, irretrievable data loss and a damaged reputation. Ransomware and phishing protection from M3 Technology Consultants shield your organization with the most up-to-date, comprehensive security measures available.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

BUILD A WALL AROUND YOUR VULNERABLE DATA

A company is hit with ransomware every 40 seconds. Seventy-six percent of organizations have fallen victim to phishing attacks. When it comes to cybersecurity, the threats are real – and you need a multi-layered, end-to-end security protocol in place to fight them. Ransomware and phishing attacks can bring down your entire network, and paying cybercriminals may not be enough to get your data back. Our ransomware and phishing protection services secure your systems through antivirus software, email encryption and backup and recovery plans. We also train your employees to spot potential threats, so you're protected from the inside out.

24/7/365 MONITORING

Our team of expert engineers and support technicians proactively monitors your systems to prevent trouble and maximize uptime. In the unlikely event of an interruption, they're in place to immediately solve the problem.

MINIMIZED DOWNTIME

You don't have time to sit around while your systems are down. In addition to proactively monitoring your network so we can stop threats before they start, we back up your data to the cloud, making it easily recoverable in any situation.

ENHANCED SECURITY

Outdated applications and unpatched servers leave you exposed to a variety of cyberthreats. M3 Technology Consultants automates the process of keeping your cloud-based applications updated to prevent threats from impacting your organization.

PREDICTABLE MONTHLY COST

We work within your IT budget, making sure you only pay for what you need. Simply select the IT services that will benefit you most, then pay a flat, monthly fee based on that choice.

HELP DESK SUPPORT

M3 Technology Consultants resolves 99 percent of technical issues quickly and easily, with little to no downtime. Just give us a call or shoot us an email. We work with you to troubleshoot technical issues and overcome virtually any obstacle.

SPECIALIZED EXPERTISE

Have a problem that's puzzling your IT department? Our team is here to help. It can be tough to stay on top of all the technical changes happening every day. Now your staff can lean on us when they need to.
