SOFTWARE & APPLICATION DEVELOPMENT

PROGRAMMING A CUSTOMIZED EXPERIENCE

When it comes to implementing software and other applications, the solution you need doesn't always exist. Whether an existing solution doesn't integrate with your services or your problem is completely unique to your business model – you need customized software and applications to solve your most frustrating problems.

CODE THAT SPEAKS FOR ITSELF

Fluent in a wide range of programming languages, our team of developers creates software and application solutions specifically designed for your challenges. From streamlining your workflow to fixing the source of your tech troubles, we'll develop the solutions you need to improve productivity and generate revenue. Band-aid fixes tend to cost more than their worth – that's why before programming your solution, we listen to your needs, analyze your systems and ensure we completely understand your challenges and needs. Then, we create software or applications designed to resolve your IT-related issues.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

CUSTOMIZED SOLUTIONS

Why settle for technology services that only support your systems half of the time? Our developers create software and application solutions designed to resolve problems, improve work performance and ease your headaches.

PREDICTABLE MONTHLY COST

We work within your IT budget, making sure you only pay for what you need. Simply select the IT services that will benefit you most, then pay a flat, monthly fee based on that choice.

POST-DEPLOYMENT ASSISTANCE

Your IT projects don't end at deployment. We're on hand to answer questions and offer support after you launch. We'll also help you figure out your next steps, scale up or down depending on your needs and stay current with the best products and services for your business.

SEAMLESS SCALABILITY

When you're growing fast, your technology has to keep up. We'll develop software and other applications designed to scale with your business – so you can quickly adjust to ever-changing demands without the extra costs.

SIMPLER TROUBLESHOOTING

We speak IT. When you run into an issue with a product or service, we'll work quickly and diligently to resolve the problem as quickly as possible, freeing up valuable time in your workday for more important tasks.

ELIMINATED WORKAROUNDS

You can't force a solution to fit into your business model if it doesn't properly communicate with the rest of your technologies – including your email or servers. Avoid the workarounds with software and application solutions that fit your exact tech needs.

WE DO MORE THAN SOFTWARE & APPLICATION DEVELOPMENT. M3 TECHNOLOGY CONSULTANTS ALSO OFFERS:

✔ Technology Assessments

✔ IP Telephony Solutions

✔ IT Infrastructure Monitoring

✔ Remote PC & Mac Support

✔ Data Backup & Recovery

✔ IT Project Management

✔ Cybersecurity Services

✔ Cloud Computing Solutions
