

UNIFIED COMMUNICATIONS

INTEGRATING YOUR SYSTEMS FOR SMOOTHER OPERATIONS

Your customers want to be heard – unified communications make it easier. Record conversations and transfer caller information in a snap, so your employees know what customers need before they pick up the phone. Take it a step further with teleconferencing solutions and build long-term business relationships with face-to-face interaction.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

CONNECT YOUR SERVICES, CONNECT YOUR PEOPLE

When customers call, do they reach the right person the first time? Can your employees collaborate quickly and efficiently in real time? Are you leveraging the power of face-to-face interaction to build lasting relationships? Unified communications can help you answer “yes” to all these questions. By fully integrating your phone systems, instant messaging, web applications, video conferencing devices and more, we give you all the tools you need to communicate seamlessly. Whether you’re speaking to a client halfway around the world or a team member in the next office over, you’ll always hear each other clearly.

PREDICTABLE MONTHLY COST

At M3 Technology Consultants, we don’t think you should spend money on services you don’t need. Simply select the IT services that will benefit you most, then pay a flat, monthly fee based on that choice.

HIGH-SPEED CONNECTION

Slow connection speeds and high network latency can cost you thousands of dollars in lost productivity and customer dissatisfaction. Experience a smooth connection that boosts efficiency and gives your business a competitive advantage.

INCREASED MOBILITY

Traveling frequently and working flexible hours to service customers are part of today's business reality. Unified communications gives your employees the ability to route office calls directly to a mobile device for maximum flexibility.

SINGLE POINT OF CONTACT

Do you have to dig through old emails and phone contacts to find the right person to answer your questions? There's a simpler way – call us. We'll become your single point of contact, communicating with all of your vendors on your behalf.

HELP DESK SUPPORT

M3 Technology Consultants resolves 99 percent of technical issues quickly and easily, with little to no downtime. Just give us a call or shoot us an email. We work with you to troubleshoot technical issues and overcome virtually any obstacle.

STRATEGIC PLANNING

Being spontaneous is fun, but not when it comes to your IT decisions. We learn the needs of your business, discuss your goals and create a tailored roadmap that meets both, so you can make more confident, cost-effective decisions.

WE DO MORE THAN UNIFIED COMMUNICATIONS. M3 TECHNOLOGY CONSULTANTS ALSO OFFERS:

- ✓ Technology Assessments
- ✓ IP Telephony Solutions
- ✓ IT Infrastructure Monitoring
- ✓ Remote PC & Mac Support
- ✓ Data Backup & Recovery
- ✓ IT Project Management
- ✓ Cybersecurity Services
- ✓ Cloud Computing Solutions
