VIRTUAL CIO SERVICES

PUSHING YOU FORWARD WITH STRATEGIC GUIDANCE

If you're busy handling IT challenges as they arise day-to-day, you can't get a big-picture view of your business – or prepare for what's ahead. A virtual CIO (vCIO) learns the ins and outs of your company, recommends solutions that fit your needs and helps you make smart, confident technology decisions as you move into the future.

ABOUT M3 TECHNOLOGY CONSULTANTS

We recognize that busy businesses do not have time to guess what IT support their businesses may or may not need. After years of experience, M3TC has developed one simple streamlined solution, our True Blue inclusive service package. All of the support your business needs, without the back and forth, nickel and diming. One package designed to provide proactive system support, so you can run your business and enjoy peace of mind.

OPTIMIZE OPERATIONS WITH A ROADMAP FOR GROWTH

You have the resources you need for now – but, what happens when you expand? Or, maybe you're interested in implementing new technology solutions, but you're afraid of making a costly mistake. Whatever your challenge, a vCIO has the answer. Your virtual CIO assesses your current infrastructure, locating areas for improved security and efficiency. They also anticipate your needs for the future – based on intensive knowledge of your industry – and collaborate with you to design a strategic plan that meets your goals. Choose and implement solutions fearlessly, knowing that you're making the best choices for your business.

ENHANCED SECURITY

Outdated applications and unpatched servers leave you exposed to a variety of threats. M3 Technology Consultants evaluates your systems to identify gaps in security and close them before they're exploited by cyber criminals.

INCREASED PRODUCTIVITY

You don't have time to waste on hiccups in your IT projects. M3 Technology Consultants manages projects from concept to completion, using our expertise to predict and plan for bumps in the transition so your business can continue running smoothly.

STRATEGIC PLANNING

Being spontaneous is fun, but not when it comes to your IT decisions. We learn the needs of your business, discuss your goals and create a tailored roadmap that meets both, so you can make more confident, cost-effective decisions.

PREDICTABLE MONTHLY COST

We work within your IT budget, making sure you only pay for what you need. Simply select the IT services that will benefit you most, then pay a flat, monthly fee based on that choice.

HIGH-LEVEL ASSESSMENTS

You can't improve your systems without knowing where your technology stands. We conduct comprehensive assessments of your computers, network, processes and more to identify areas for improvement and develop a customized plan for growth.

POST-DEPLOYMENT ASSISTANCE

Your IT projects don't end at deployment. We're on hand to answer questions and offer support after you launch. We'll also help you figure out your next steps, scale up or down depending on your needs and stay current with the best products and services for your business.

WE DO MORE THAN VIRTUAL CIO SERVICES.
